ACCOMMODATION INFORMATION

Northam is 100 km from Perth City. If you decide to come and stay in Northam overnight please keep in mind that there are occasions when your balloon flight may be cancelled on site early next morning due to unsafe weather conditions. We will assist with weather forecasting where possible, but it is difficult to be accurate too far in advance. Much depends upon micrometeorology in the Avon Valley, where conditions are vastly different to Perth and can be changeable even at first light on the morning of the flight. We will contact passengers by 1pm the day prior if we are going to cancel early

The accommodation venues listed are those with which we have requested a special rate for balloon passengers, and whom have a good understanding of balloon operations, weather cancellations etc. We make no representation about the quality of the accommodation listed below nor the quality of service offered by them. Please confirm check-in and checkout times as well as cancellation policies with the venue when you book your accommodation. Some venues require check-out when you leave for your balloon flight. Price may be subject to change by operators.

All prices (incl B&B's) are a special balloonist rate without breakfast (as it is part of the balloon flight).

There is a wide range of other accommodation available in the Avon Valley, including a motel. Please call our Bookings Office on 9621 2000 if none of our recommendations suit your requirements, and you need us to find phone numbers for other venues. Northam Visitors Centre 08 9622 2100 can also assist with suggestions.

Please advise our Bookings Office where you will be staying OR if you are driving up on the morning of the flight.
